

Churrascaria Texas de Brazil does it again!

It has been another smashing successful year for Texas de Brazil, and they shared the love and some of their great food with an anniversary bash for their favorite clients in their infamous "Rouge Lounge." Rachel Nordemeer was being the perfect hostess to the likes of Minister of Tourism and Transport Edison Briesen along with the countless others that consider a dinner at Texas de Brazil a night to remember! Ever since it opened in the La Hacienda Mall in Palm Beach more than three years ago, the restaurant has always proven popular with island residents and visitor alike, providing an irresistible salad bar and an impressive selection of mouth-watering meats grilled on skewer that brings customers back again and again. Those same delicious selections were offered as bite sized snacks throughout their anniversary celebration, so it was not wonder the room was filled to overflowing! Congratulations to Texas de Brazil.
